Research Assistant (Department of Radiology)

The Department of Radiology and the UBC MRI Research Centre invites applications for a Research Assistant position. The applicant must hold a BSc with a strong research background in magnetic resonance imaging and related analysis, proven research data analysis ability and experience with human subjects. Preference will be given to those individuals who have worked with susceptibility weighted imaging (SWI), who have experience with Matlab or IDL and the most common medical imaging formats (DICOM, Analyce, nifti) and who are familiar with Linux, Unix and shell scripting. .

The individual will be part of the UBC MRI Research Centre and will collaborate and assist in the analysis of SWI data as part of an innovative research project in the use of SWI MR techniques in the study of Parkinson's Disease patients.

The position will begin 16th February 2009. This is six month appointment with no annual renewal. Salary will be commensurate with qualifications and experience.

UBC Faculty of Medicine

Please submit a letter of application, curriculum vitae, a statement of areas of expertise and strengths and the names of three referees, no later than 20th October 2008 and send to:

Dr. Alex Rauscher
