

Rigging services will require an individual quote/order and quotes will vary according to design, weight, size and the material of banners and signage. If you are shipping your own banner/signage that needs rigging, please contact Devin Weir of Gearhouse directly for a quote. His contact information can be found below.

If you are ordering a banner/signage directly through ISMRM's show decorator [GL Events](#), please notify Bianca van Dewenter, Services Manager (bianca.vandewenter@gl-events.com) you will be requiring rigging and she will be happy to coordinate with Gearhouse for a personal quote/order.

PLEASE NOTE: Rigged banners and signage are allowed in standard **peninsula (3m x 6m booth, 2 corners) and island booth spaces only**. Whether suspended from above, or supported from below, they should comply with all ordinary use-of-space requirements. Rigged banners and signage should be directly over contracted space only. Approval for the use of hanging banners and signage, at any height, should be received from the exhibitions organizer at least **60 days** prior to installation. Variances may be issued at the exhibition management's discretion. Drawings should be available for inspection.
