Purpose

- Promote communication, research, development, applications and the availability of information on MR in medicine and biology and related topics across the 390 members of the chapter
- Develop and provide channels and facilities for continuing education and communication in the field
- Provide information and advice on public policy concerned with MR in medicine and biology and related topics, and perform charitable, scientific and educational functions with respect to MR applications in medicine and biology and other related topics.

- To work with or for, and to co-operate with local, regional and national governments and governmental and private agencies, organisations, firms and institutions in efforts to accomplish one or more of the above purposes.

- Ensure that scientists and clinicians working in the field have equal and fair opportunities to contribute to it.

Upcoming and ongoing activities

Joint DACH-Nordic Meeting in Kiel, Germany,
16.-17.9.2025

Collaboration with other chapters
(e.g., lecture series with BIC-ISMRM)
