Postdoctoral/Research Fellow in animal cancer imaging
Post-doctoral positions in Translational Imaging Lab are available immediately at the Department of Radiology, Northwestern University. Our Research focuses on novel image-guided GI cancer immunotherapy and image-guided combination GI cancer immunotherapies. The positions provide an excellent opportunity to work in an interdisciplinary environment and have close interactions with MR physicists, radiologists, oncologists, and endocrinologists. The candidate is expected to work on projects involving small animal MRI and micro-PET/CT image acquisition.

Required:
1. M.S, M.D. or Ph.D in cancer research field.
2. Strong background in small animal MRI experimental design and data analysis.
3. Demonstrated small animal handing skills.
4. A record of publication and/or conference proceedings.

Northwestern University provides competitive salaries commensurate with experience. These positions are funded by NIH grants. Northwestern University is an equal opportunity employer. To apply, please send your CV and cover letter to ZHUOLI ZHANG.
