TWO TENURE-TRACK FACULTY POSITIONS at the level of Assistant, Associate, or Professor Rank are available starting Fall 2018 at Augusta University Dept. of Chemistry and Physics to contribute to teaching and research missions of the University. Discipline and research area is open to the extent that, within one or between both positions, physical chemistry classroom instruction and NMR spectroscopy expertise are covered. Applicants outside these areas will be considered but must contribute to departmental teaching and have expertise supporting university research with preference to medicinal and biomolecular areas. The NMR expert will use 300 and 500 MHz NMR extensively as part of a research program, promote increased utilization of NMR in core facility, and provide technical/methodological consultation to a variety of researchers, especially in biomolecular areas. Both positions must have a Ph.D. (postdoctoral experience preferred), a commitment to excellence in teaching, and pursue a vigorous, externally funded research program that includes engagement of undergraduates. Rank and salary commensurate with experience and history of external funding. Complete online application at www.augusta.edu/hr/jobs/faculty (position 13810). Send cover letter describing interest in the position and any fit with NMR and/or p-chem needs to nbourne@augusta.edu. Include CV, transcripts, research plan, teaching philosophy, and 3 letters of reference. Review of applications will begin December 15. AU is an equal opportunity employer.
