Postdoctoral Position
Intramural Research Program
National Institute of Mental Health
Bethesda, Maryland, USA

The National Institute of Mental Health (NIMH), Molecular Imaging Branch seeks a postdoctoral researcher in the areas of magnetic resonance spectroscopy/imaging applications and/or technological development. The position is available immediately.

Applicants should have extensive graduate research experience in magnetic resonance applications or technological development as demonstrated by peer-reviewed publications. The appointee is expected to play a major role in one or more of the following areas: i) application of magnetic resonance technology to on-going in vivo studies; ii) development of the state-of-the-art spectroscopy and imaging methods; iii) data analysis software development.

NIMH is a major research component of the National Institutes of Health (NIH) and the Department of Health and Human Services (DHHS), which have nationwide responsibility for improving the health and well being of all Americans. Interested applicants should send CV and letters of reference to: Jun Shen, Ph. D., NIMH, Rm. 2D51, Bldg 10, 9000 Rockville Pike, Bethesda, Maryland, USA or e-mail to shenj@intra.nimh.nih.gov.

NIH and DHHS are Equal Opportunity Employers.
