Postdoctoral position in PET & 7T MRS at Massachusetts General Hospital / Harvard Medical School

The Loggia and Ratai Labs are inviting applications for a Post-Doctoral Research Fellow in the Department of Radiology at Massachusetts General Hospital and Harvard Medical School.

The candidate will use state-of-the-art integrated PET/MRI scanners and 7T MRS to image neuroinflammation in the central nervous systems of HIV patients with/without neuropathic pain who may/may not be on opioid therapy.

Requirements include a Ph.D. in Neuroscience, Physics, Chemistry, Engineering, or a related field, as well as good command of written and oral English. Experience with Positron Emission Tomography is preferred, but not required. Compensation is competitive and commensurate with experience.

Check our lab websites (http://scholar.harvard.edu/loggia https://www.nmr.mgh.harvard.edu/lab/ratailab) for more information about our work. If interested, please email Marco Loggia (marco@nmr.mgh.harvard.edu) or Eva Ratai (ratai@nmr.mgh.harvard.edu) with your CV.
