Position Description: The Department of Diagnostic and Interventional Imaging at McGovern Medical School at The University of Texas Health Science Center at Houston (UTHealth) is seeking applications from highly qualified candidates for the position of Director of the Magnetic Resonance Imaging Center. This is a senior position, Professor rank, requiring leadership and administrative skills.

The MRI Center houses Philips 3T Achieva and Bruker 7T animal scanners. The MRI Center is located in a 5,000 square-foot facility on the ground floor of the main Medical School building.

Qualifications: Minimum qualifications include either MD/PhD or Ph.D. degree in an area very closely related to magnetic resonance imaging/spectroscopy; significant experience in the development of advanced MRI technology and application to various clinical conditions; thorough familiarity in the latest developments in the field of MRI/MRS. This position also requires an outstanding track record in peer reviewed publications, extramural funding, and national and international reputation. Opportunities exist for research collaboration with investigators throughout the Health Science Center.

Salary: Salary is based on the applicant’s qualifications. Generous start-up funding will be provided. An Endowed Chair may be available for candidates with outstanding credentials.

Contact Information: Interested applicants should send an initial letter of intent along with the CV to Ponnada Narayana, PhD; DABR at ponnada.a.narayana@uth.tmc.edu. Please contact Dr. Narayana for further information. Potential applicants are also encouraged to meet with him at the ISMRM meeting in Montreal for more detailed information about this position.
