Postdoctorial Researcher

The University Medical Center Göttingen currently offers a

Postdoc position, public-service salary group 13 TV-L,

for 22 months starting October 2019.

The University Medical Center Göttingen is a tertiary care center. 7,900 employees work in over 65 departments and facilities to provide top-quality patient care, excellent research and modern teaching. Göttingen, the “City of Science”, is located near the center of Germany and hosts a network of scientific research facilities. Next to the University Medical Center and the Georg-August University of Göttingen, this includes five Max Planck Institutes, the German primate center, an institute of the German Aerospace Center, as well as the Göttingen Academy of Sciences.

Working in an interdisciplinary research team consisting of physicists, neuro-scientists, neurologists, and cardiologists, your task will be the development and evaluation of novel MRI methods for functional heart & brain imaging with combined electro-physiological measurements.

Qualifications and experience:

- degree in physics, mathematics, or engineering
- PhD or equivalent in imaging science
- excellent command of the English language
- experience in computer programming

Please send an electronic form of your application to: radiologie.ag.uecker@med.uni-goettingen.de

If you have any questions, feel free to contact us. Women are especially encouraged to apply. Applicants with disabilities and equal qualifications will be given preferential treatment. We look forward to receiving your application by September 15th, 2019.

Martin Uecker, Ph.D.
Associate Professor
University Medical Center Göttingen
Institute for Diagnostic and Interventional Radiology
Robert-Koch-Str. 40
37077 Göttingen, Germany
