Research Fellow / Senior Research Fellow in Epilepsy Imaging and Image Analysis

Full Time

The appointment will be on UCL Grade 7. The salary range will be Grade 7 £35,965 to £43,470 per annum or Grade 8 £44,674 to £52,701 per annum, inclusive of London Allowance.

This post is a shared appointment between the Centre for Medical Image Computing (CMIC, within UCL-CS and UCL-MPBE departments) and the Epilepsy Imaging group (part of the Department for Clinical and Experimental Epilepsy at the UCL Queen Square Institute of Neurology). The main duties of the post-holder would be to develop new subject-specific image analysis tools within epilepsy and to provide an interface for translation of methods between the two research groups. Secondary aims would be to provide MR image acquisition and analysis expertise to the epilepsy imaging group.

The funding for this post is for 24 months in the first instance.

The joint appointment is between CMIC and the epilepsy department, at the Chalfont Centre for Epilepsy and Queen Square, and the expectation is to spend time working in both departments to facilitate the translation of state-of-the-art image analysis methods. As such, experience with image analysis and programming is essential and expertise in MR image acquisition very beneficial. Given the strongly multidisciplinary aspect to this role, both personal and written communication skills are essential to this post.

For further details about the vacancy and how to apply online please go to https://www.ucl.ac.uk/human-resources/working-ucl/jobs-ucl and search on Reference Number 1844425.

Informal enquiries welcome to Dr Sjoerd Vos (email: s.vos@ucl.ac.uk ), Prof John Duncan (email: j.duncan@ucl.ac.uk ), or Prof Alexander (email: d.alexander@ucl.ac.uk ).

Closing Date: 31 December 2019.

Latest time for the submission of applications: 23:59.

Interview Date: TBC.
