Postdoctoral Scholar Opportunity at UC Irvine

Job Description:

The Department of Neurology at the University of California, Irvine, invites applications for a postdoctoral scholar position in the laboratory of Dr. S. Ahmad Sajjadi MD, PhD to work on a recently funded R01 grant and other related projects. The appointment is for 1 year with the possibility of extension upon satisfactory performance. We are seeking a highly motivated investigator with previous training and experience in acquisition and analysis of neuroimaging data with particular emphasis on structural MRI and PET.

The candidate should be extremely efficient in working within a multidisciplinary team and have strong organizational and communication skills. The successful applicant will become a member of a vibrant team working on discovery of imaging biomarkers for degenerative brain diseases with particular emphasis on hippocampal sclerosis and TDP-43 pathologies. The position requires an individual who is an effective team player, highly organized, and innovative.

Applicants who have a prior publication (first author) and strong written and verbal communication skills are preferred.

Candidates must possess an advanced Degree (MD or PhD) by or prior to appointment start date.

Substantive inquiries about the positions should be directed to Dr. Sajjadi (ssajjadi@uci.edu).

To Apply:

Please log onto UCI’s RECRUIT located at https://recruit.ap.uci.edu/JPF05645

Applicants should complete an online application profile and upload the following application materials electronically to be considered for the position:

- Curriculum Vitae - Your most recently updated C.V.
- Cover Letter
- Statement of Research (Optional)
- Statement of Teaching (Optional)
- Statement of Contributions to Diversity - Statement addressing how past and/or potential contributions to diversity will advance UCI’s Commitment to Inclusive Excellence.
- Misc / Additional (Optional)
- Reference requirements
- 3 required (contact information only)
