Department of Health and Human Services  
National Institutes of Health  
Clinical Center  
Diagnostic Radiology- Supervisory Diagnostic Radiologic Technologist

The Radiology and Imaging Sciences Department of the National Institutes of Health (NIH) Clinical Center is seeking a Supervisor Diagnostic Radiologic Technologist. The NIH Clinical Center is a 200-bed hospital which serves as the research hospital for the NIH intramural program. Radiology and Imaging Sciences radiologists direct and interpret diagnostic imaging studies and perform interventional procedures for NIH patients, in addition to providing consultation and participating in collaborative research. To support the Clinical Center mission, state-of-the-art equipment is maintained in all modalities.

The ideal candidate will have achieved and maintained primary credential certification from ARRT in Magnetic Resonance imaging, Nuclear Medicine Technology, Radiography, Sonography or Vascular Sonography and may have in addition post primary credential certification form ARRT in one or more Computed Tomography, Magnetic Resonance Imaging, Vascular Interventional Radiography or Vascular Sonography. In addition, advanced education and training in radiology business management, and training and or certification in imaging informatics by the American Board of Imaging Informatics is desirable. Demonstration of leadership experience in areas such as quality and safety, the use of information technology to enhance workflow and communication or business management is a plus.

To apply to this position, please log onto to www.usajobs.gov and apply to vacancy announcement NIH-CC-DH-20-10881715, please be sure to upload all requested documents. Applications can be submitted from August 26, 2020 - September 4, 2020. **Salary is commensurate with experience.**

This is a GS-13 federal appointment in the competitive service. A full benefits package (including retirement, health, life and long-term care insurance, Thrift Savings Plan participation, etc.) is available. Appointees must be U.S. citizens.
