The University of Florida Health Colleges invite applications for faculty positions at the

**Assistant, Associate or Full Professor rank**

**Specializing in artificial intelligence-powered development of novel diagnostics and therapeutics.**

Successful applicants will join the University of Florida’s (UF) Artificial Intelligence (AI) Initiative (https://ai.ufl.edu) to advance the university’s reputation as a national and worldwide leader in the application of AI. This initiative is supported by a $70 million initial investment as well as the implementation of the most powerful AI supercomputer in higher education. To build on this unique infrastructure, UF is hiring 100 new faculty members, including an initial 17 faculty members in the UF health sciences. **UF Health** is the largest integrated academic health center in the country, with colleges of **Medicine, Pharmacy, Nursing, Dentistry, Public Health and Health Professions** and **Veterinary Medicine**, as well as the Malcom Randall Veterans Affairs Medical Center, with over 2,400 faculty. AI faculty opportunities are available on campuses in both Gainesville, FL and Jacksonville, FL.

This job posting is specific to the recruitment of AI faculty engaged in the **advancement of diagnostics and therapeutics**. To that end, successful applicants will have expertise in one or more of a variety of areas, including (but not limited to) ‘omics technologies, bioinformatics, biomedical imaging and drug discovery. In addition, applicants should demonstrate prior experience working in a highly collaborative and inclusive environment to advance the development and implementation of novel diagnostics and therapeutics. Related to this, UF has designated several key priority areas, including neurology/neuroscience, aging, acute critical care, cardiology, oncology, endocrinology, mental health, and child and maternal health, as well as precision medicine, disease prevention, public health and other related areas. Applicants must have a doctoral degree in the health sciences, computer science, engineering or related disciplines.

Successful applicants will join a network of AI researchers grounded in the values of Trustworthy AI, Community, and Diversity, Equity and Inclusion (DEI). Faculty members hired through this initiative will be appointed in departments throughout the UF health colleges. Application review began in March 2021 and will continue until the positions are filled. To submit an application packet, which includes a CV, letter of interest and list of references, go to https://facultyjobs.hr.ufl.edu/ and search by Job #70950. Note that this search, with focus on Diagnostics and Therapeutics, is one of three focus areas of the Application of AI in Health Sciences Hiring Initiative and the official job posting is therefore more generic. For further information about these positions, **contact the search committee co-chairs**: Adam Woods, PhD, at ajwoods@phhp.ufl.edu and Chenglong Li, PhD, at lic@cop.ufl.edu.

*The University of Florida is an Equal Opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. We welcome nominations of and applications from anyone who would bring additional dimensions to the university’s research, teaching and outreach mission.*

*If an accommodation due to a disability is needed to apply, please call 352-392-2477 or the Florida Relay System at 800-955-8771 (TDD). Searches are conducted in accordance with Florida’s Sunshine Law.*
