Academic Clinical Development Specialist, Cardiac MRI

London

Job Description Summary
Work in close collaboration with academic research sites and clinical partners in and around London to optimize Cardiac MRI solutions

Job Description
Essential Responsibilities:

- Combine knowledge of MRI and clinical needs to guide definition and development of new MRI applications or capabilities towards automation & simplification of an MR exam, and improving the reliability from patient setup, data acquisition to image reconstruction, analysis and interpretation
- GE lead on collaborative projects with academic partners to generate results that are in alignment with GE roadmap and goals
- Assist in scanning of human subjects, protocol optimization, and evaluation of image quality
- Work with a cross-functional team of engineers and scientists to translate promising prototypes into product by designing protocols, traveling to partner sites for installation and testing, and tracking progress of clinical studies
- Providing expert counsel and training to customers using applications under development
- Use broad expertise in MR and applications to help resolve quality issues both with product as well as prototype applications
- Summarize results in preparation for possible regulatory submissions, external scientific publications, and marketing

Qualifications/Requirements:

- Certified Magnetic Resonance Technologist, ARRT (MR) or equivalent experience, advanced degree (Bachelors or Masters) is a plus
- Solid experience in MR imaging or closely related field
- Knowledge of Cardiac MRI clinical applications is highly appreciated
- Flexible and willing to travel approx. 8 days/month
- Experience with research collaborations and clinical research studies
- Familiar with the relevant GE Healthcare MRI product portfolio and clinical optimization

Desired Characteristics:

- Outstanding writing, presentation, and communication skills
- Strong collaboration skills and ability to thrive in a dynamic and global work environment
- Can-do attitude, flexible, intellectually curious, willing to work with cross-functional, global team

Inclusion and Diversity
GE Healthcare is an Equal Opportunity Employer where inclusion matters. Employment decisions are made without regard to race, colour, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law.
