Tufts Medical Center, Department of Radiology, is seeking an **Interventional Radiologist** to join our three-person group.

**Why join our team:**

We are a subspecialized, dynamic interventional radiology department with a diverse practice including interventional oncology, tumor ablation, percutaneous drainage and biopsy, dialysis access, and trauma angiography. The IR division maintains a peripheral arterial practice and performs central venous occlusion reconstructions and IVC filter placement and removal.

We participate in aortic aneurysm treatment, both in the planning and in the insertion of thoracic and abdominal aortic endografts while continuing to participate in peripheral arterial interventions. The IR radiologists at Tufts are active stakeholder in the Cardiovascular Center at Tufts Medical Center and have an amicable, strong relationship with Vascular Surgery, Cardiology, and Cardiothoracic Surgery. We believe in diversity, inclusive leadership, and supportive mentorship as well as the importance of life-work balance and physician wellness.

**Join Tufts Medical Center Physician Organization in our mission to heal, to comfort, to teach, to learn and to seek knowledge to promote health and prevent disease.**

**How you’ll transform patient care:**

- You will be part of an active clinical practice with existing and growing APP support to run an outpatient clinic and an admitting service.
- You will help in the current ESIR program with residents rotating through Intensive Care and Vascular Surgery and will help us as we transition to an IR/DR Residency.
- You will be involved in the education of Vascular Surgical fellows as part of the integration with the Cardiovascular Center at Tufts.
- You will help train the diagnostic radiology resident, give conferences, and be given academic time to support projects and initiatives in IR.
- You will have access to full-time use of two modern single plane labs, part-time access to a bi-plane lab, and shared use of a hybrid OR. The section owns several ultrasound machines and there is a dedicated procedural CT scanner with CT-fluoroscopy.
- You will have the option of reading coronary CTA and cardiac MRI for which 3 new MRIs are on order.
- You will join a radiology department which actively supports the academic mission, multidisciplinary collaboration, and gives mentorship opportunities to junior faculty.
- You can be part of efforts led by the new Chair to develop Artificial Intelligence applications in radiology from diagnosis and treatment management to operational efficiency.

**Who you are:**

- Completed Fellowship in Interventional Radiology
- A team player who works cooperatively with a wide range of stakeholders and disciplines that fosters excellence in patient care and enhances patient experience.
• A radiologist who enjoys teaching residents and supports academic projects/research and wants to work in an academic environment

**COVID-19 Policy:**

To protect patients, physicians, staff, visitors, and the community from the COVID-19 infection, **vaccination for COVID-19 is mandatory for employment** unless an exemption is granted for medical or religious reasons.

**Work, Live, and Grow:**

Boston, Massachusetts is a dynamic, innovative, and historic city with something for everyone. Whether you seek rich cultural attractions, an intellectual environment, music and entertainment, museums, night life, shopping, fitness, food festivals, or a sunset harbor cruise- you will find it here. The city of Boston is ideally located in close proximity to the coastal towns of Cape Cod and the Berkshires in Western Massachusetts, the White Mountains of New Hampshire, and Green Mountains of Vermont which that offer great summertime recreational activities from swimming, sailing, fishing, hiking, and rock climbing and great winter activities from Nordic skiing to downhill skiing and snowboarding. Boston consistently ranks as one of the most desirable places in the country to live and to raise a family. We pride ourselves on having an inclusive work environment for all of our employees. We offer a very competitive salary with competitive benefits including health, dental, and vision insurance, and retirement plans.

**Location:** Tufts Medical Center in downtown Boston, Massachusetts.

**How to apply:** You can apply for this position via [this link](#). Please be sure to include a confidential CV and cover letter with your application. Should you have any questions regarding the position or any complications submitting an application with us, please feel free to reach out to Ashley Shea, Provider Recruiter at Ashley.Shea@wellforce.org

**Why Wellforce:**
