Grow your MRI career at University Health Network!

Come join TeamUHN and bring your career to the forefront with best practice research, innovation and leading-edge modalities.

At University Health Network (UHN), we are transforming lives and communities through excellence in care, discovery and learning. We are the largest hospital network in Canada, ranked #1 as Canada’s Top Research Hospitals and one of the World’s Best Hospitals. UHN encompasses the Toronto General and Toronto Western hospitals, the Princess Margaret Cancer Centre, Toronto Rehabilitation Institute, and The Michener Institute of Education.

As an integral member of the Joint Department of Medical Imaging (JDMI) team at UHN, you will perform various MR Imaging procedures. The JDMI features state-of-the-art digital technology and a team of innovative staff dedicated to patient care, superb image quality, and a commitment to continuing education and quality assurance program initiatives. The Imaging Technologist will be responsible for teaching, training, educational activities, research, as well as safety and quality improvement programs/activities.

The JDMI at UHN offers technologists access to annual professional development funding and support, mentorship, and opportunities in career directions that include education, research, and clinical leadership. The department also provides an academic premium for frontline staff actively work to support education, practice and research.

The JDMI has exciting opportunities for MRI Technologists in the following modalities:
