Postdoctoral Associate

The ideal candidate should have:

- A Ph.D or M.D., or be near completion of their degree, in a relevant subject area.
- Background in radiobiology, radiochemistry, organic chemistry, imaging science, autoradiography/immunohistochemistry, or chemical biology. No previous experience in molecular imaging required.
- The desire to be a part of a dynamic translational research team.

Job duties:

Assist in the design, planning, and execution of preclinical radiotheranostic development for the systemic treatment of solid tumors with alpha- or beta-emitting unsealed isotopes, guided by PET-based staging and dosimetry. A primary focus of the lab is develop therapies that utilize bispecific antibodies for anti-tumor/anti-radiohapten in vivo pre-targeting.

Facilitate collaboration with internal and external collaborators.

Critically analyze and summarize scientific literature.

Assist in the preparation of abstracts, manuscripts, and grant applications.

Communicate methods, data, and results in presentations.

Salary established below per annum commensurate with qualifications: $62,400 - $72,800.

Weill Cornell Medicine provides the above salary range in compliance with the New York City law on Salary Transparency in Job Advertisements.

The above salary range for New York City based roles represents WCM’s good faith and reasonable estimate of possible compensation at the time of posting.

Applications will be considered on a rolling basis, and the search will remain open until the position is filled. The initial term is for two years. Salary will be determined based on the experience of the candidate and the University guidelines for Postdoctoral Fellows. Please send application package to smc4002@med.cornell.edu, with “postdoctoral associate” in the subject line.

Diversity is one of Weill Cornell Medicine’s core values and is essential to achieving excellence in patient care, research, and education. We welcome applications from candidates who share our commitment to fostering a culture of fairness, equity, and belonging. Weill Cornell Medicine is an Equal Employment Opportunity Employer, providing equal employment opportunities to all qualified applicants without regard to race, sex, sexual orientation, gender identity, national origin, color, age, religion, protected veteran or disability status, or genetic information.
