

Join Our Team at Vista.ai!

Vista.ai is a fast-paced startup in Palo Alto, CA, developing cutting-edge MRI technology to revolutionize medical imaging. We're seeking passionate engineers to help us shape the future. If you want to make a real impact with us, connect with us or visit us at **booth A17**.

Open Positions

Software Engineers (MRI Focus)

Seeking talented Software Engineers for MRI Pulse Sequences and App development.

You're a great fit if you have:

- Experience in MRI software/app development or pulse sequence programming (GE, Siemens, Pulseseq).
 - Deep knowledge of MRI scanner architecture.
 - Proven software development skills (C, C++, Javascript, Python).
 - Strong communication and collaboration.
-

Backend & Systems Engineers

Seeking experienced engineers with strong C++, Rust, and CUDA skills for core platform, HPC, and test automation.

Ideal candidates will have:

- Firm grasp of backend development.
 - Proficiency in C++, Rust, and/or CUDA.
 - Experience with system-level programming.
 - Strong problem-solving and system design skills.
-

Machine Learning, Computer Vision Engineer

Design, develop, and deploy state-of-the-art machine learning models to assist users in acquiring and analyzing MRI data with unprecedented efficiency

Looking for skilled individuals in:

- Strong foundation in machine learning and statistical modeling techniques, coupled with proficiency in data analysis tools.
 - Proficiency in Python is essential; (or a strong aptitude to learn it quickly) is highly valued.
 - Hands-on experience with deep learning frameworks (e.g., PyTorch, TensorFlow, Keras).
-

Other positions available: Service Engineer and Sales Engineer

Why Join Vista.ai?

Work on cutting-edge medical imaging technology in a collaborative environment and make a real impact on patient lives. Competitive salary and benefits.
