For almost 30 years, our society has delivered education that empowers MR radiographers and technologists to help elevate their profession by staying informed of current and advancing imaging techniques and protocols.

The SMRT provides its members with diverse opportunities for education throughout the year via virtual meetings, global chapters and divisions—as well as our established annual meetings—with networking and collaboration all being a core part of our Society.

GLOBAL CHAPTERS & DIVISIONS  AND MORE!

The SMRT and the ISMRM set our societies apart from any other clinical, radiological or scientific organization. As a section of the ISMRM, we actively bring together MRI scientists, clinicians, radiographers, technologists, and industry members from around the globe – many of whom are world leaders in their field, and all of whom share the common goal of translating scientific advances to improve patient care.

In addition to being part of this inspiring global community of MR professionals, you will join an organization that demonstrably values and actively promotes the role an educated MR radiographer and technologist has in implementing scientific & vendor advances in both the clinical and research settings.

Shawna L. Farquharson, M.Sc.(R)
SMRT President, 2019-2020

VISIT WWW.SMRT.ORG OR EMAIL MEMBERSHIP@ISMRM.ORG FOR MORE INFORMATION
### FULL MEMBERSHIP
- Full Members are certified or registered radiographers and technologists in magnetic resonance imaging as defined by the standards in the country they reside.
- Full Members must be radiographers/technologists for a minimum of two years and have appropriate equivalent professional competence in radiologic practice.
- Full Members will have voting rights, be able to hold office and serve on SMRT committees.

### EARLY CAREER MEMBERSHIP
- Early Career Members are radiographers or technologists who have graduated from an accredited program in their initial medical imaging or radiation therapy discipline within the past 24 months, or are registered by the ARRT or equivalent and are within 24 months of their initial certification.
- Early Career Members will have voting rights, be able to hold office and serve on SMRT committees.
- Early Career Members receive many of the same benefits as Full Members but at a savings of 32%!

### STUDENT MEMBERSHIP
- Student Members who are enrolled in a full-time academic program in an accredited education institution at the bachelor, associate or equivalent levels and have not yet received initial certification.
- Student members will not have voting rights or be able to hold office; however, they will be able to serve on SMRT committees.
- Student Members receive many of the same benefits as Full Members but at a savings of more than 70%!

### AFFILIATE MEMBERSHIP
- Affiliate Members are non-radiographers/technologists, working in an MRI-related field, who share the purpose of the SMRT but do not meet the qualifications for Full Membership.
- Affiliate Members will not have voting rights or be able to hold office; however, they are able to serve on SMRT committees.
