

Magnetic Resonance Imaging (MRI) Technologist
OHIO STATE UNIVERSITY

The [Center for Cognitive and Behavioral Brain Imaging](#) (CCBBI), in the College of Arts and Sciences, seeks an MRI Technologist to join our team. The College of Arts and Sciences is the largest college and the academic heart of the university. The College hosts 81 majors. With 38 departments, 20+ world-class research centers, and more than 2,000 faculty and staff members, students have the unique opportunity to study with the best artists, scholars, and scientists in their field. The College values diversity and offers a supportive, open, and inclusive community.

The CCBBI is directed by Dr. Ruchika Prakash and the center is dedicated to the study of brain mechanisms underlying individuals' cognitive capacity and subjective well-being, as well as dysfunctions of these brain mechanisms in normal aging and mental disorders. It aims to contribute to the development of future brain imaging modalities and to create and disseminate knowledge about brain, mind, and imaging research.

Successful candidates must have earned a bachelor's degree in radiology, biomedical engineering, or physics, or a related field or an equivalent combination of education and experience, with a certification as an MRI Technologist; experience working in a clinical or research MRI environment, including knowledge of proper safety screening and scanning procedures. Additionally, American Registry of Radiologic Technologists (ARRT) Radiography certification and Ohio Department of Health radiology license is desired.

If you are interested in being considered for the position, review the full job description and qualifications and apply online at <https://www.jobsatosu.com>, under job listing #451397 and submit a cover letter detailing background and experiences, a CV, the expected date of availability, and the names and contact of three references.

If you have questions about the position or the center, please contact Dr. Ruchika Prakash at prakash.30@osu.edu
