Electro-Magnetic Tissue Properties (SWI) Study Group

Congratulations to the following presenters who received the most audience votes for prizes for their Rapid Highlights presentations:

1st Prize: Pinar Özbay –

Functional Quantitative Susceptibility Mapping at 7-Tesla: Resolving Neuronal Activation Localized in Grey-Matter

2nd Prize: Emma Biondetti –

Application of Laplacian-based Methods to Multi-echo Phase Data for Accurate Susceptibility Mapping

3rd Prize: Benjamin Tendler –

Investigating the magnetic susceptibility of skeletal muscle at 7T
