The ISMRM Workshop on Advancing Translational MR Neuroimaging: Towards Imaging Biomarkers in Psychiatry will build on its established position as the premier event in its field and its unique position in providing challenging state-of-the-art programs for both clinical and basic scientists. Biochemists, biophysicists, physicists, engineers, physiologists, radiologists, neuroradiologists, cardiologists, internists, psychiatrists, neurologists, technologists, manufacturers, and others working in the field of magnetic resonance will participate in this meeting. Attendance at these meetings provides valuable peer association and information essential to keep current in the field.
